REVENUE DEPARTMENT.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE, BANGALORE.

Circular No. C. 206—25-26, *dated* 13—18*th July* 1925.

During recent inspections of certain offices, the Revenue Commissioner has noticed some defects and the following instructions are issued for the guidance of the officers concerned:—

In some offices no stock is being taken of business, every month, as it should be done in accordance with the rules. The attention of all heads of offices is drawn to the rules and orders noted below :—

(1) Paragraph 13 of G. O. No. 1414-14-43—E. A. G. 263, dated 10th November 1918;

(2) Paragraph 156 of the Manual of General Circular and Standing Orders,

(3) Paragraph 35 of the District Office Manual ;

(4) Paragraph 8 of the Sub-Division Office Manual ;

(5) Paragraph 14 of the Taluk Office Manual, and

(6) Revenue Commissioner's Circular 195—Gl. 21-22, dated 13th July 1921 and No. 4090, dated 10th July 1923.

2. A statement of arrears of correspondence, etc., should be prepared every month and carefully examined by the head of the office. A list of all papers pending over three months both in the office and outside should be prepared and the files themselves procured and examined so as to see whether any special action could or should be taken to ensure early disposal. Fresh lists need not be prepared every month. It is sufficient if the list prepared once is revised every month by scoring out the disposed of ones and adding fresh numbers.

3. It is often found that cases appearing in the arrear list of one office as pending in another office are not to be found in the arrear list of the latter office. For instance, papers shown in the Deputy Commissioner's arrear list as pending in the Sub-Division or in a Taluq Office are not to be found in the lists of these offices. It is therefore necessary that from time to time a verification of these lists between various offices should be made. For this purpose, the lists of papers pending over a certain period (three months or six months to start with) should be analysed into batches according to office whence received and where pending and should be sent for verification to such offices. In particular, Sub-Division Officers should take their pending lists to the several taluks in their charge and check them with the taluk registers and trace out long pending cases and expedite their disposal.

5. In some taluks many old papers are pending with Shekdars and a periodical check of the Shekdar's papers with the taluk arrear list will be useful. This should be done by the Amildar or Sheristedar.

6. Now that in almost all the districts, Amildars and Sub-Division Officers are relieved of the magisterial work, they should be able to spare time to devote to disposing of all old pending cases.

7. The Revenue Commissioner hopes that the Deputy Commissioners and under their instructions, Sub-Division Officers and Amildars will give effect to these suggestions and reduce pendency of cases so that there might very soon be no case pending for over six months, and in due course no case pending over three months.

Notification dated 10th July 1925.

It is hereby notified that the second batch of ten Probationary Shekdars will be selected by the undersigned shortly in accordance with G. O. No. R. 1372-81—L. R. 393-22-6, dated 20th August 1924. A NOTE OF DISSENT ON THE REPORT OF THE UNIVERSITY RE-ORGANISATION COMMITTEE SIGNED BY THE MEMBERS OF THE COMMITTEE ON THE 16TH JULY 1925, BY MR. B. VENKATANARANAPPA, A MEMBER OF THAT COMMITTEE.

As the epuipment in English of students declared as having passed the School-Leaving Certificate Examination is generally very poor, it is essential that our students in the Intermediate and the Bachelor Degree (B.A. and B.Sc.) stages should have a good grounding in English Language and Literature, so as to fit them for any profession that they might afterwards desire to take up.

The course in English as outlined in the present Report, both for the Intermediate and the Bachelor Degree (B.A. and B.Sc.) courses is, in my opinion, entirely inadequate; and there seems to be no apparent reason for making such an extensive change in the Curricula of Studies now obtaining in our University for the First Year B.A. Examination and for the B.A. and the B. Sc. Degree Examinations.

The course in English would, according to the scheme proposed, be generally lower in standard in our University than in any other Indian University (except, it may be, in one or two), and much lower than in our neighbouring University—that of Madras. This must certainly lower the standard and the value of our degrees.

It is unfortunate that Vernacular as a compulsory subject of study is proposed to be abolished in the B.A. and the B.Sc. courses. It must be remembered that there is no hope, in the near future, of English education spreading among the masses; and when in the Oosmania University even higher education is being imparted in the Vernacular, it is, I think, a retrograde step to discourage the study of the Vernaculars by higher class students in our University, in the face of His Highness the Chancellor's "interest in the special encouragement of Kannada Literature which is provided for in the University Scheme." His Highness the Chancellor was, when our University was started, "glad to see that our University Scheme provides for a fuller and more continuous course of teaching not only in Kannada, but also in the other Vernaculars of Southern India which are spoken in Mysore."

Should we not give the Scheme that we are now working, a fair chance before we pull it down ?

The inclusion of "Science" subjects in the Arts course, both for the Intermediate and the B.A. Degree Examinations is, in my opinion, a mere waste of funds and energy, since the percentage of students that can and will really make a choice of subjects on the score of aptitude is, under the present conditions, exceedingly small.

If any change were needed at all, I would go back to the old F.A. course of the Madras University. That course gave an excellent general education to the student that underwent the course and fitted him excellently well for any course that he might afterwards choose to take up. It is such a course that our students need very badly at present and any specialisation might conveniently and with advantage come in afterwards.

I am quite opposed to the fashioning of the Intermediate courses of study to suit the several professional and other studies that a student might afterwards desire to take up. This will prove a great stumbling block in the way of students whose means are very limited, the number of such students being unfortunately on the increase.

The "Cultural" value of *three* optional subjects that are proposed to be introduced into the B.A. and the B. Sc. courses is, in the case of more than 75 per cent of our students a mere myth, since their energies are all directed more towards a "pass" in the examination than on the proper understanding of the subjects they study. Under such circumstances, two subjects properly studied would be much more valuable to the student than three subjects studied but indifferently.

If it is desired to change the present course of studies obtaining in our University, I would recommend the adoption of the courses now in force in the Madras University; otherwise, I would give the old scheme a sufficient trial before introducing extensive changes in it.

That such courses as are now recommended for adoption by our University exist in some famous Universities of England or America is no sufficient justification for their adoption by us, since our conditions are entirely different from theirs.

Notification No. 1083, *dated the* 23*rd July* 1925.

Ordinance 51, page 32 of Calendar for 1924-25 has been modified as under :—

Subject to the Chancellor's approval, candidates who have received the largest number of votes shall be deemed to be elected up to the number of vacancies available. BRIEF REVIEW ON THE WORKING OF THE PROCESS ESTABLISHMENT OF THE SEVERAL MUNSIFFS' COURTS IN THE STATE DURING THE QUARTER ENDING 30TH JUNE 1925.

Part I (General).

There was no change in the number of Nazaraths (21) and of the men employed therein (159 Amins and 456 peons). With a view to reduce cost, a certain number of vacancies among process servers as shown below, were left unfilled :—

Munsiff's Court, Shimoga	7
Second Munsiff's Court, Mysore	6
Second Munsiff's Court, Bangalore	2
Munsiff's Court, Nanjangud	1

2. Consequent on the intervention of the annual vacation receipts and expenditure decreased from Rs. 37,076-12-0 and Rs. 27,079-9-0 respectively in the previous quarter to Rs. 28,375-4-0 and Rs. 26,968-11-7, the net saving being Rs. 1,406-8-5.

3. Due to the same reason there was a fall in the number of processes served from 68,765 in the previous quarter to 48,824 in the present quarter. The average number of processes served by an Amin and a process server fell from 78·8 and 160·8 in the previous quarter to 57·6 and 111·2. But there was a satisfactory increase in the percentage of personal service from 70·4 in the previous quarter to 73·2 in the present quarter, only two courts failing to reach 65 per cent, *viz.*, Chikmagalur and Narasimharajapur.

4. From the statement of personal service of the several courts shown below in order of merit it is seen that fourteen courts (against eleven in the preceding quarter) achieved 70 per cent and over :—

PRESS COMMUNIQUE.

Dated 26th October 1925.

COPY OF THE PRESS COMMUNIQUE ISSUED BY THE GOVERNMENT OF INDIA, REGARDING THE INTRODUCTION OF THE NEW PATTERN CURRENCY NOTE OF TEN-RUPEE DENOMINATION.

New pattern ten-rupee note.

To provide further safeguards against imitation and to render the serial number less liable to accidental destruction, the Government of India will shortly introduce into circulation a new pattern Rs. 10 note.

2. The general design of the note is identical with that of the present pattern, but the colour of the ground work is of a more yellow shade of green. The serial numbers are shown at the right hand top and left hand bottom corners by the side of the denomination of the note expressed in numbers. The engraving of the head of His Majesty the King-Emperor has also been altered in colour so as to show more clearly the overprint in green lines. The Star of India watermark in the clear window has also been altered and is now of the type made familiar in the last design of Re. 1 notes issued before their discontinuance, that is, the new star has no square border, but the space occupied by the complete star watermark in the note is the same.

3. There has been no alteration in the colour or design of the reverse of the note.

4. Old pattern ten-rupee notes will, of course, continue to be legal tender.

COPY OF THE PRESS COMMUNIQUE ISSUED BY THE GOVERNMENT OF INDIA, REGARDING THE INTRODUCTION OF THE NEW PATTERN CURRENCY NOTE OF FIVE-RUPEE DENOMINATION.

New pattern five-rupee note.

In pursuance of their policy of remodelling the Currency Note issues so that their notes may be more convenient to handle and less liable to imitation than at present, the Government of India will shortly introduce a new pattern Rs. 5 note.

2. Its general appearance bears more resemblance to the new pattern Rs. 10 note than to notes of the old pattern. Its size is $6'' \times 3\frac{3}{4}''$, considerably smaller than the present Rs. 5 note and slightly smaller than the new pattern Rs. 10 note. The ground work of the note is a tracery of rainbow shadings in the following colours :—

A central vertical band of orange shading gradually into bands of green and then grey on each side. The overprint is in brown of a more reddish tinge than the brown on the present pattern Rs. 10 note.

3. There is a large oblong clear window at the left hand bottom quarter of the note showing clearly the watermark of the Star of India and the signature of the Controller of the Currency. At the right hand top corner there is an engraving of the head of His Majesty the King-Emperor, considerably larger in size and with a more clearly defined overprint than in the present pattern Rs. 10 note. The serial numbers are printed in black on the left hand top and the right hand bottom corners, the latter being directly under the engraving of the King's head. The value of the note is shown clearly in words on the face of the note and in numbers on the top right hand and bottom left hand corners.

4. The reverse, which is printed in the same colours as the face, bears the letters "G. R. I." at the top and "Government of India" at the bottom. The value of the note is shown clearly in English at the right hand top corner and in the eight most important vernacular scripts on the left of the note.

5. Currency notes of the old design will, of course, continue to be legal tender.

PRESS COMMUNIQUE.

Dated 26th October 1925.

COPY OF THE PRESS COMMUNIQUE ISSUED BY THE GOVERNMENT OF INDIA, REGARDING THE INTRODUCTION OF THE NEW PATTERN CURRENCY NOTE OF TEN-RUPEE DENOMINATION.

New pattern ten-rupee note.

Provide further safeguards against imitation and to render the serial number less accidental destruction, the Government of India will shortly introduce into circula- a new pattern Rs. 10 note.

2. The general design of the note is identical with that of the present pattern, but the colour of the ground work is of a more yellow shade of green. The serial numbers are shown at the right hand top and left hand bottom corners by the side of the denomination of the note expressed in numbers. The engraving of the head of His Majesty the King-Emperor has also been altered in colour so as to show more clearly the overprint in green lines. The Star of India watermark in the clear window has also been altered and is now of the type made familiar in the last design of Re. 1 notes issued before their discontinuance, that is, the new star has no square border, but the space occupied by the complete star watermark in the note is the same.

3. There has been no alteration in the colour or design of the reverse of the note.

4. Old pattern ten-rupee notes will, of course, continue to be legal tender.

COPY OF THE PRESS COMMUNIQUE ISSUED BY THE GOVERNMENT OF INDIA, REGARDING THE INTRODUCTION OF THE NEW PATTERN CURRENCY NOTE OF FIVE-RUPEE DENOMINATION.

New pattern five-rupee note.

In pursuance of their policy of remodelling the Currency Note issues so that their notes may be more convenient to handle and less liable to imitation than at present, the Government of India will shortly introduce a new pattern Rs. 5 note.

2. Its general appearance bears more resemblance to the new pattern Rs. 10 note than to notes of the old pattern. Its size is $6'' \times 3\frac{3}{4}''$, considerably smaller than the present Rs. 5 note and slightly smaller than the new pattern Rs. 10 note. The ground work of the note is a tracery of rainbow shadings in the following colours :—

A central vertical band of orange shading gradually into bands of green and then grey on each side. The overprint is in brown of a more reddish tinge than the brown on the present pattern Rs. 10 note.

3. There is a large oblong clear window at the left hand bottom quarter of the note showing clearly the watermark of the Star of India and the signature of the Controller of the Currency. At the right hand top corner there is an engraving of the head of His Majesty the King-Emperor, considerably larger in size and with a more clearly defined overprint than in the present pattern Rs. 10 note. The serial numbers are printed in black on the left hand top and the right hand bottom corners, the latter being directly under the engraving of the King's head. The value of the note is shown clearly in words on the face of the note and in numbers on the top right hand and bottom left hand corners.

4. The reverse, which is printed in the same colours as the face, bears the letters "G. R. I." at the top and "Government of India" at the bottom. The value of the note is shown clearly in English at the right hand top corner and in the eight most important vernacular scripts on the left of the note.

5. Currency notes of the old design will, of course, continue to be legal tender.

PRESS COMMUNIQUE.

Dated 26th October 1925.

COPY OF THE PRESS COMMUNIQUE ISSUED BY THE GOVERNMENT OF INDIA, REGARDING THE INTRODUCTION OF THE NEW PATTERN CURRENCY NOTE OF TEN-RUPEE DENOMINATION.

New pattern ten-rupee note.

To provide further safeguards against imitation and to render the serial number less liable to accidental destruction, the Government of India will shortly introduce into circulation a new pattern Rs. 10 note.

2. The general design of the note is identical with that of the present pattern, but the colour of the ground work is of a more yellow shade of green. The serial numbers are shown at the right hand top and left hand bottom corners by the side of the denomination of the note expressed in numbers. The engraving of the head of His Majesty the King-Emperor has also been altered in colour so as to show more clearly the overprint in green lines. The Star of India watermark in the clear window has also been altered and is now of the type made familiar in the last design of Re. 1 notes issued before their discontinuance, that is, the new star has no square border, but the space occupied by the complete star watermark in the note is the same.

3. There has been no alteration in the colour or design of the reverse of the note.

4. Old pattern ten-rupee notes will, of course, continue to be legal tender.

COPY OF THE PRESS COMMUNIQUE ISSUED BY THE GOVERNMENT OF INDIA, REGARDING THE INTRODUCTION OF THE NEW PATTERN CURRENCY NOTE OF FIVE-RUPEE DENOMINATION.

New pattern five-rupee note.

In pursuance of their policy of remodelling the Currency Note issues so that their notes may be more convenient to handle and less liable to imitation than at present, the Government of India will shortly introduce a new pattern Rs. 5 note.

2. Its general appearance bears more resemblance to the new pattern Rs. 10 note than to notes of the old pattern. Its size is $6'' \times 3\frac{3}{4}''$, considerably smaller than the present Rs. 5 note and slightly smaller than the new pattern Rs. 10 note. The ground work of the note is a tracery of rainbow shadings in the following colours :—

A central vertical band of orange shading gradually into bands of green and then grey on each side. The overprint is in brown of a more reddish tinge than the brown on the present pattern Rs. 10 note.

3. There is a large oblong clear window at the left hand bottom quarter of the note showing clearly the watermark of the Star of India and the signature of the Controller of the Currency. At the right hand top corner there is an engraving of the head of His Majesty the King-Emperor, considerably larger in size and with a more clearly defined overprint than in the present pattern Rs. 10 note. The serial numbers are printed in black on the left hand top and the right hand bottom corners, the latter being directly under the engraving of the King's head. The value of the note is shown clearly in words on the face of the note and in numbers on the top right hand and bottom left hand corners.

4. The reverse, which is printed in the same colours as the face, bears the letters "G. R. I." at the top and "Government of India" at the bottom. The value of the note is shown clearly in English at the right hand top corner and in the eight most important vernacular scripts on the left of the note.

5. Currency notes of the old design will, of course, continue to be legal tender.

Comptroller.

IN THE CHIEF COURT OF MYSORE AT BANGALORE.

Notification No. D1.—Dis. 148 *of* 1925-26, *dated the 3rd December* 1925.

FROM

The Registrar,
Chief Court of Mysore, Bangalore.

To

The District Judges and District Magistrates.

The Chief Court has reason to believe that notes of inspection of subordinate civil and criminal courts by the Judges of the Chief Court when forwarded to District Judges and District Magistrates for information and communication to the courts concerned, are frequently delayed by these officers before being transmitted to the courts concerned. Action even on points on which the necessity for action has been pointed out in the inspection notes is not always taken by these officers, nor are instructions always given to the court concerned for attending to such points.

The Chief Court therefore directs that in future, District Judges and District Magistrates shall acknowledge and report to the Chief Court within fifteen days of the receipt of the notes of inspection, the fact of the notes having been forwarded to the court concerned together with the action taken or being, or proposed to be, taken by them in regard to the points observed in the inspection notes together with a copy of any remarks, supplementary instructions or warning conveyed by them to the court concerned.

If the presiding officer of the court inspected does not receive a copy of the inspection notes within one month from the date of inspection, he shall invariably report the fact to his immediate official superior.

OFFICE OF THE SECRETARY, MYSORE STATE LIFE INSURANCE COMMITTEE, BANGALORE.

Notice dated 20*th November* 1925.

It is notified for the information of the general public that policies in the Public Branch which had lapsed under Rule 19 in force prior to 18th August 1925, may be revived within two years from the date of Government Order No. 1130—G. F. 44-25-7, dated 18th August 1925, amending the above Rule of the Public Branch, *i.e.*, before 18th August 1927, after which date such revival will not be permitted and surrender value only paid in case it is found admissible under the Rules now in force.

T. SATYARAJ CHETTY,
Secretary.

COMPTROLLER'S OFFICE, BANGALORE.

Subject:—Cross endorsement on cheques drawn on treasuries with the words "Under Rupees....."

Circular No. 46, *dated* 8*th December* 1925.

To—All Officers, Presidents of Municipalities and Local Bodies authorized to draw cheques on treasuries and all District and Taluk Treasury Officers.

It has come to the notice of the undersigned that cheques drawn on treasuries are in some cases paid by the treasuries without the endorsement "Under.....Rupees" written across the cheque at right angles to the type. Such an endorsement is necessary to safeguar the interests of the treasuries for which there is no provision in Mysore Account Code. The following article has been introduced in the second edition of Volume I, Mysore Account Code which is in print. Pending the issue of the book this rule will be brought into force at once and followed in future. The treasuries should strictly refuse to cash cheques which do not contain the prescribed cross endorsements.

"29. All cheques should have written across them in words, at right angles to the type, a sum a little in excess of that for which they are granted, thus "Under thirty rupees" will mean that the cheque is for a sum not less then Rs. 20 but less than Rs. 30 and similarly "Under eight hundred rupees" will mean that it is for less then Rs. 800 but not more than Rs. 700. No abbreviations such as "eleven hundred" for "one thousand one hundred" should be used. The amount should be written in the manner prescribed for vouchers in article. In drawing or cashing a cheque, it should be remembered that a common form of fraud consists in altering the word *one* into four by prefixing an *f* and changing the *e* into an *r* the figure being easily altered to correspond. The word *twenty*, if written carelessly, has also sometimes been changed into *seventy*. The drawer of a cheque in which these words occur should therefore so write as to make the fraud impossible and the treasury should examine the words and corresponding figures with special care.

Note.—The cross entry is not necessary if the amount in words is typed perforated by a special cheque writing machine.

There was no change in the respective number of Courts exercising appellate and original jurisdiction, *viz.*, 6 and 30 including the Additional Sub-Judge's Court at Mysore and the two Additional Munsiffs' Courts at Mysore and Bangalore.

2. APPELLATE WORK.

(*a*) *District Judges* (3).—There was an increase in disposals of Regular and Miscellaneous Appeals taken together (158 against 67 in the previous quarter which however included six weeks' vacation). The pendency increased by 79 (*viz.*, 853 against 774).

(*b*) *Sub-ordinate Judges* (3 *including the Additional Sub-Judge at Mysore and excluding the Sub-Judge at Bangalore*).—There was an increase in disposals of Regular Appeals (*viz.*, 140 against 108) resulting in a decrease in the number pending (353 against 370).

3. ORIGINAL WORK.

(*a*) *District Judge's Courts* (3).—There was a slight rise in disposals (11 against 10), but the number pending increased by 8 (123 against 115) due to an increase in institutions.

FINANCIAL DEPARTMENT.

COMPTROLLER'S OFFICE, BANGALORE.

Subject:—Cross endorsement on cheques drawn on treasuries with the words "Under Rupees....."

Circular No. 46, *dated* 8*th December* 1925.

To—All Officers, Presidents of Municipalities and Local Bodies authorized to draw cheques on treasuries and all District and Taluk Treasury Officers.

It has come to the notice of the undersigned that cheques drawn on treasuries are in some cases paid by the treasuries without the endorsement "Under.....Rupees" written across the cheque at right angles to the type. Such an endorsement is necessary to safeguard the interests of the treasuries for which there is no provision in Mysore Account Code. The following article has been introduced in the second edition of Volume I, Mysore Account Code which is in print. Pending the issue of the book this rule will be brought into force at once and followed in future. The treasuries should strictly refuse to cash cheques which do not contain the prescribed cross endorsements.

"29. All cheques should have written across them in words, at right angles to the type a sum a little in excess of that for which they are granted, thus "Under thirty rupees" will mean that the cheque is for a sum not less than Rs. 20 but less than Rs. 30 and similarly "Under eight hundred rupees" will mean that it is for less than Rs. 800 but not more than Rs. 700. No abbreviations such as "eleven hundred" for "one thousand one hundred" should be used. The amount should be written in the manner prescribed for vouchers in article. In drawing or cashing a cheque, it should be remembered that a common form of fraud consists in altering the word *one* into four by prefixing an *f* and changing the *e* into an *r* the figure being easily altered to correspond. The word *twenty*, if written carelessly, has also sometimes been changed into *seventy*. The drawer of a cheque in which these words occur should therefore so write as to make the fraud impossible and the treasury should examine the words and corresponding figures with special care.

Note.—The cross entry is not necessary if the amount in words is typed perforated by a special cheque writing machine.

of 107·37 per thousand of recorded births. The highest infantile mortality
rned for Kadur (149·46), Kolar (131·30), Bangalore (130·00), and Hassan
lowest rate (77·95) was reported, as in the case of the preceding two half-
Mysore District.

INFECTIOUS DISEASES.

5. *Plague.*—The disease was returned for all the districts accounting for 1,865 deaths, as compared with 7,464 deaths in the preceding half-year. The districts of Kadur and Chitaldrug may be said to have remained practically free from plague during the half-year.

6. *Cholera.*—During the half-year the disease assumed an epidemic form and affected all the districts. The total number of deaths returned was 6,600, as against 31 during the previous half-year. The largest number of deaths was returned for the Mysore District, and the fewest deaths from the districts of Tumkur and Kolar (*viz.*, 41 and 52 respectively). The usual preventive measures were adopted and medical relief given in all the affected localities.

7. *Small-pox.*—The total number of deaths returned under this cause was 3,261 as against 1,716 in the preceding half-year, excepting the districts of Kadur and Shimoga which were practically free from small-pox epidemic all the other districts were affected w rather extensive prevalance of the disease. The number of vaccinations performed t 60,915.

8. *Fevers.*—During the half-year 26,455 deaths were returned as due to fevers, ag a total of 24,644 deaths under this head during the preceding half-year. The incidence fevers in the Mysore, Hassan, Kadur and Shimoga Districts was high as compared with the other districts, on account of malaria and to a less extent relapsing fever. Next to "all other causes" fevers account for the heaviest mortality in the State epuivalent to 45·2 per cent of the total mortality. There is no doubt that malaria is largely prevalent in most districts especially 'Malnad'. The President, District Board, Hassan, in his review on the vita statistics for the district for the half-year ending 30th June 1924 remarks as follows:—

"The increase of deaths by 1980 under this head was due to the prevalence of ma ria, due to the heavy rains in July and August last and the formation of stagnant pools and due to the low vitality of the people, who could not resist malarial outbreak in an epiden form. There were more deaths from this epidemic this half-year, than in any other responding period. The District Board distributed through all available agencies quinine a value of nearly Rs. 1,770 which went a long way in combating the epidemic and wh was much appreciated. Special Duty Medical Officers were also employed who toured in rural parts and treated the patients. The Sanitary staff evinced genuine interest in t work and lots of these pools were filled up."

The distribution of quinine was similarly carried out in the Kadur and S Districts.

9. *Dysentery and Diarrhœa.*—One thousand eight hundred and ninety deat cause were recorded during the half-year as compared with 1,769 in the precedi

10. *Respiratory Diseases.*—A total number of 1,545 deaths was retur respiratory diseases.

11. *Injuries.*—Six hundred and sixteen deaths were returned during t due to wounding or accident or snake bite or suicide.

12. *General.*—Public heath during the half-year was below normal ow valence in several districts of one or other of the following diseases:—Plague pox and fevers.

OFFICE OF THE SANITARY COMMISSIONER IN MYSORE, BANGALORE.

A BRIEF REVIEW ON THE RECORDED VITAL STATISTICS OF DISTRICTS FOR THE HALF-YEAR ENDING 31ST DECEMBER 1924.

A statement showing by districts the number of births; the number of deaths classified according to principal causes and the infantile mortality recorded during the half-year ending 31st December 1924, is hereto annexed.

Births.—The total number of births registered during the half-year was 50,262 as against 51,729 in the preceding half-year, equivalent to annual ratios of 17·15 and 17·65, respectively, per mille of population. The highest birth rate (22·02) was returned for the Kolar District and the lowest (8·40) for the Kadur District, the rates for the other districts ranging between 19·24 (Bangalore) and 13·05 (Hassan).

3. *Deaths.*—The number of deaths under all causes returned for the half-year totalled 62,565 yielding an annual ratio of 21·35 per 1,000 of population as compared with 58,507 and 19·96 per mille in the preceding half-year. The death-rate for the Chitaldrug District (15·57) was the lowest during the half-year and that for the Kadur District (30·67) the highest, the rates for the other districts ranging between 16·29 (Tumkur) and 29·42 (Shimoga).

Births exceeded deaths in the Kolar, Tumkur and Chitaldrug Districts.

4. *Infantile Mortality.*—The total number of children under one year of age that died during the half-year was 6,240 as against 5,555 during the previous half-year. This gives an average ratio of 124·14 per 1,000 of recorded births. The highest infantile mortality rates was returned for Kolar. The rate was also high for the Malnad Districts of Hassan, Kadur and Shimoga. In the other districts the rates ranged between 129·81 (Bangalore) and 81·69 (Mysore).

5. *Infectious Diseases.—Plague.*—The disease was returned for all the districts excepting Tumkur accounting for 1,623 deaths, as compared with 1,865 deaths in the preceding half-year. The districts of Bangalore, Kolar and Chitaldrug returned the fewest deaths and may be said to have remained practically free from the disease during the half-year.

6. *Cholera.*—Although in the beginning of the half-year cholera continued to prevail in an epidemic form in almost every district, the total deaths from the cause fell from 6,600 in the previous half-year, to 1,438 in the half-year under review. The districts of Mysore and Shimoga contributed the largest number of deaths. The usual preventive measures were adopted and medical aid rendered in all the affected districts.

7. *Small-pox.*—The total number of deaths returned under this cause was 2,975 as against 3,261 in the preceding half-year. The district of Kadur was completely free from the disease, while the districts of Bangalore, Kolar, Mysore and Chitaldrug were rather extensively affected. The number of vaccinations performed during the half-year totalled 53,123.

8. *Fevers.*—During the half-year 33,135 deaths were returned as due to fevers against a total of 26,455 during the previous half-year. The incidence of fevers in the Mysore, Hassan and Shimoga Districts was high as compared with the other districts owing to malaria. Free distribution of quinine in the affected areas in these districts was carried out. The reduction of breeding places of mosquitoes by filling up or canalising ditches or hollows is reported to have received the attention of the local Sanitary Staff.

9. *Dysentery and Diarrhœa.*—Two thousand five hundred and forty-eight deaths under these causes were recorded during the half-year as compared with 1,890 deaths in the preceding half-year.

10. *Respiratory Diseases.*—A total of 1,464 deaths from respiratory diseases was returned as against 1,545 in the previous half-year.

11. *Injuries.*—Six hundred and sixty-four deaths were returned as due to wounding, accident, snake bite or suicide.

12. *All other causes.*—A total of 18,718 deaths from all other causes was returned during the half-year against 16,275 in the previous half-year.

13. *General.*—As in the preceding half-year, public health was affected by the continued prevalence of plague and cholera and the heightened incidence of fevers.

Statement showing the Vital Statistics for the half-year ending 31st December 1924.
